## TEACHER'S DAY

Being a teacher is a very ennobling experience. Every child is different in their own way and connecting with them emotionally is rewarding. It's satisfying to see children progress both academically and non-academically and the most amazing thing is you learn from teaching. Every day you teach them and in return you learn as well. These little kids can surprise you with their answers and logic at times, thus your everyday is a new day and a new experience. Keeping pace with the energy and spirit of our kids, we devise various methods to transform our classrooms into active learning zones, offering continuous stimulus and prompting responses. Sanskriti Kids gives us all the support and opportunities to work in a dynamic way and explore the best for the holistic development of the children. The ambience of the school is pleasant and invigorating, making our daily challenges an enjoyable experience. Happy Teaching for a joyful learning!!!

### The cows and the lions

Five cows lived in a little forest. They ate fresh grass in a large green meadow. They were kind friends. They decided to do everything together, so the lions couldn't attack them for food.

One day, the five cows fought and each one started to eat grass in a different place. The lions decided to seize the opportunity and killed them one by one.
