Important days

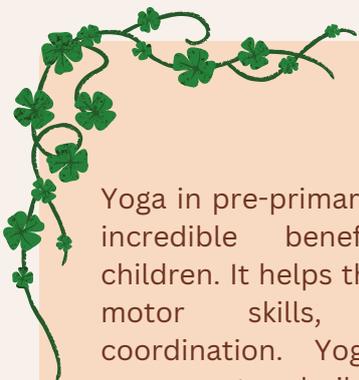

International Bird Day

International Bird Day is celebrated annually on March 3rd to raise awareness about the importance of birds and their habitats. These observances serve as reminders of the significance of birds in our ecosystem and the need for their protection and conservation. Protecting individual species is not enough, as protecting their habitats is also necessary. Many neglected and overgrown areas of nature are disappearing from the Czech landscape, and few realize that this is causing the loss of habitats for many bird species. The biggest threats to birds, however, occur during their often very long migrations. According to BirdLife International, more than 1 million birds die each year in the Mediterranean, mainly in Cyprus, due to hunting practices. Ornithologists celebrate Bird Day in the field, as April is a time when bird migration is in full swing and many interesting bird species can be observed.

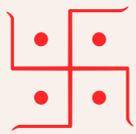

Pre-Primary Yoga Session

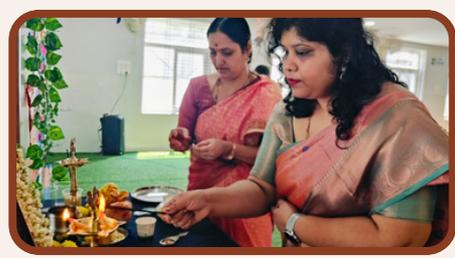

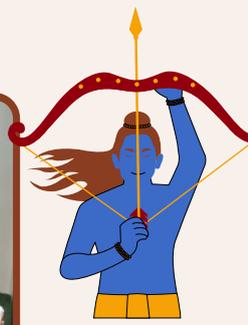

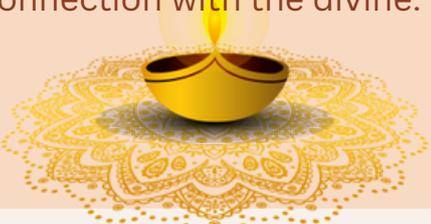

Yoga in pre-primary education offers incredible benefits for young children. It helps them develop gross motor skills, balance, and coordination. Yoga postures and movements build strength and endurance in kids. Furthermore, it teaches proper posture and alignment, which can prevent future back and neck issues. Yoga aids children in managing stress and anxiety, promoting emotional well-being. Practices like meditation and deep breathing enhance their focus and concentration. Additionally, yoga encourages a positive self-image and self-awareness. Research shows that yoga can improve memory and learning in children, foster creativity, and stimulate imagination. It also supports the development of critical thinking and problem-solving skills. Incorporating yoga into pre-primary education contributes to children's holistic development, preparing them for future learning and providing a fun and engaging experience. Overall, the impact of yoga on young children's lives can be profound, setting the foundation for a lifetime of physical, emotional, and cognitive well-being.

Shri Ram Navami

Shri Rama Navami is a significant Hindu festival that marks the birth of Lord Rama, the seventh avatar of Vishnu, who is revered for his righteousness, courage, and adherence to dharma. Celebrated on the ninth day of the Chaitra month in the Hindu lunar calendar, this festival holds profound spiritual and cultural importance. Devotees commemorate the occasion with fervor, engaging in various rituals such as fasting, singing devotional songs, and reading the Ramayana, which narrates the life and virtues of Lord Rama. Temples are often adorned with flowers, and special prayers and processions are organized to honor the divine. The celebration of Shri Rama Navami serves as a reminder of the principles of truth, virtue, and duty that Lord Rama embodies, inspiring individuals to lead a life of integrity and compassion. This festival not only strengthens communal harmony but also allows devotees to reflect on their own spiritual journey and connection with the divine.

Rangotsav Winners

The Rangotsav Drawing Competition is a national-level art event that encourages students to showcase their creativity and artistic skills. The prize distribution ceremony for the Rangotsav competition is a vibrant and celebratory occasion, marking the culmination of creative and cultural festivities. This competition inspires students to think outside the box and express themselves creatively. Winning awards or receiving recognition can boost students' self-esteem and confidence.

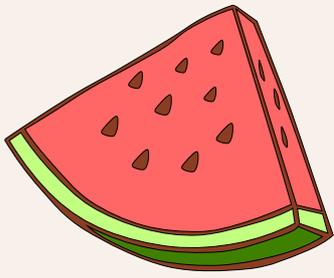

Pre-Primary Activities

Activities such as cutting, coloring, drawing, and pasting strengthen the small muscles in children's hands and fingers, which are essential for writing and various daily tasks. Arts and crafts encourage children to express themselves freely, aiding in the development of their creative thinking and problem-solving skills. Engaging in crafts enhances memory, concentration, and critical thinking. It also introduces basic math and science concepts like shapes, sizes, colors, and cause-and-effect relationships. Manipulating various materials and tools sharpens coordination, benefiting many other physical tasks later on. Through artistic activities, children learn to express their emotions in healthy constructive ways, boosting their self-esteem and emotional intelligence. Group projects and sharing materials promote cooperation, communication, patience, and respect for others' ideas. Arts and crafts often incorporate cultural elements, helping children appreciate diversity and develop a sense of identity and belonging.

Summer Splash Pre-Primary

The Summer Splash event at school is an exciting annual celebration that marks the end of the academic year and the beginning of summer break. It's a day filled with fun, and laughter. The Summer Splash event not only provides an opportunity for students to unwind and enjoy themselves but also fosters a sense of community and camaraderie among students, teachers, and parents. It is an opportunity to unwind and enjoy a variety of water-themed activities creating a festive atmosphere that encourages social interaction and strengthens school community bonds. It's a perfect way to celebrate achievements, create lasting memories, and kick off the summer season on a high note.

Happy Earth Day

This year, April 22 marks the 55th anniversary of Earth Day, a time to celebrate our planet and consider how we can assist Mother Nature. The theme for Earth Day is “Our Power, Our Planet,” emphasizing renewable energy and climate initiatives. On this day, we honor our magnificent planet and acknowledge the vital need to safeguard it for future generations. Each year on April 22, Earth Day brings together people worldwide with a collective goal—to protect our Earth and create a more sustainable future. Restoration encompasses more than just planting trees or cleaning rivers; it involves reevaluating our lifestyles, work habits, and consumption patterns. However, Earth Day represents more than just a day of observance; it embodies a way of thinking. It encourages us to ponder: What legacy do we wish to leave behind? What everyday decisions can we make to minimize harm and foster healing? Whether opting for reusable products, supporting local agriculture, cycling instead of driving, or discussing environmental topics, every action matters.

As we celebrate Earth Day 2025, let's not forget: this planet is our only home, and its future is in our hands.

Faculty Training Program

The faculty training program at Sanskriti Group of Schools serves as a vital tool for enhancing the skills and competencies of teachers and staff, addressing the multifaceted needs of students. By focusing on innovative teaching strategies, technology integration, and classroom management, the program ensures that educators are well-equipped to handle diverse learning styles. Furthermore, the inclusion of topics such as mental health awareness, inclusivity, and cultural competency promotes a supportive and equitable learning environment. On the second day of the program, Dr. Mona Mehdi highlighted the importance of experiential learning in modern education, offering valuable insights into its impact on student engagement. The third day featured Dr. Sanjeev Nampally, who discussed the National Curriculum Framework and the Holistic Progress Card. His session underscored the significance of learner-centric approaches and competency-based education, aligning teaching practices with national educational objectives. Through such comprehensive training, faculty members are empowered to offer higher-quality education and contribute positively to the school culture, ultimately benefiting the entire school community.

mini MARVELS

"Mini Marvels" is an enchanting chat show featuring the young talents from SanskritiKids, Chaitanyapuri. This delightful program shines a spotlight on the vibrant personalities and creative minds of our little stars, offering them a platform to express themselves and share their unique perspectives. Each episode is a heartwarming journey, filled with laughter, insightful conversations, and the boundless imagination of children. As these young stars and hosts discuss a variety of topics—from their dreams and aspirations to their favorite hobbies and stories—audiences are treated to a refreshing and inspiring experience. "Mini Marvels" not only showcases the brilliance of our young participants but also fosters an environment of learning, encouragement, and joy.

SUMMER

TIME FOR A
BREAK.

Happy Holidays

Summer break is a highly anticipated time of year for students, offering a chance to unwind and enjoy a respite from the rigors of academic life. Typically lasting several weeks, this period provides ample opportunity for students to explore new interests, engage in recreational activities, and spend quality time with family and friends. For many, it's a time to go on vacations, attend camps, or participate in various enrichment programs that can broaden their horizons. Moreover, summer break serves as a valuable period for reflection and relaxation, allowing students to recharge before the new school year begins. While it is a time for fun and leisure, it also presents an opportunity for personal growth and the discovery of new passions.
