SANKRANTHI CELEBRATION

Sankranti at Sanskriti Kids was a vibrant celebration filled with excitement and joy. The event featured a lively parents' rangoli competition, where families showcased their creativity and traditional artistry through colorful and intricate designs. Additionally, teachers joined in the fun with their own rangoli competition, adding a festive atmosphere to the occasion. The children's enthusiasm was palpable as they crafted and flew kites, a beloved tradition that symbolizes freedom and joy. The celebration not only honored cultural heritage but also fostered a sense of community and togetherness among students, teachers, and parents alike.

LITTLE CHEF

TRI COLOUR SANDWICH

What a delightful and educational activity for our Pre-Primary kids! Making a Tri Colour Sandwich was a fun and hands-on way to celebrate Republic Day while introducing young children to the significance of the Indian flag. This activity not only fostered creativity but also helped develop fine motor skills as the children layered ingredients to represent the saffron, white, and green of the flag. Through this culinary adventure, kids learned about the values symbolized by each color—courage and sacrifice, peace and truth, and faith and chivalry. Moreover, such activities encouraged teamwork and communication among the children as they worked together to create something meaningful. It was wonderful to see early education incorporating cultural and national pride in such engaging ways!

EDUTRONICS

ACADEMIC DIGITAL PRESENTATION

The Edutronics program at Sanskriti Kids was a delightful event designed to instill confidence in young learners. Primary students took the stage, presenting their digital projects to an audience that included proud parents and supportive faculty. This initiative emphasized the importance of integrating technology into education, showcasing the children's ability to effectively communicate their ideas through digital mediums. Parents were not only spectators but active participants in this celebration of learning, witnessing firsthand the academic progress and innovative capabilities of their children. The event highlighted the critical role of technology in modern education and reinforced the value of parental involvement in fostering a supportive environment for young learners.

REPUBLIC DAY

Republic Day was celebrated with great enthusiasm and patriotism at our event, leaving everyone with a sense of pride and unity. The occasion was graced by our esteemed chief guest, Mr. Vikranth Terala, the Director of Sanskriti Group of Schools, along with Mr. Pradeep Terala, a Board Member of the same institution. Both dignitaries shared words of wisdom that inspired the audience and highlighted the importance of this national day. The celebration featured a variety of special cultural performances, including vibrant displays of karate, legzims, and dumbbells by our talented students. Among these, the karate performance stood out as particularly outstanding, showcasing the dedication and skill of our young performers. The event was a true reflection of the spirit of Republic Day, fostering a sense of patriotism and community among all attendees.

CCA COOKERY CLUB

0 January 2026 at 10:19

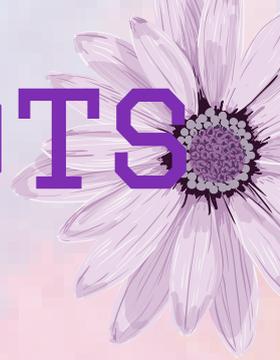

Involving children in fireless cooking activities as part of a cookery club is an excellent way to introduce them to the joys of culinary art without the risks associated with using heat. This activity not only fosters creativity and teamwork but also teaches essential life skills such as measuring ingredients, following recipes, and understanding nutrition. Fireless cooking encourages children to explore textures, flavors, and the importance of healthy eating habits. Moreover, it enhances their confidence as they create and share their unique delicacies, making it an enriching and educational experience. By engaging in these activities, children can develop a lifelong appreciation for cooking and the value of preparing meals with care and attention.

PURPLE COLOUR DAY

Celebrating Purple Colour Day at Sanskriti Kids Pre-Primary was a vibrant and engaging event that captivated the young learners. The event aimed to enhance the children's understanding and recognition of the color purple, a crucial aspect of early childhood education. All students attended dressed in various shades of purple, creating a lively and cohesive visual experience. Each child also brought a purple-colored object from home, sparking curiosity and conversation among their peers as they shared stories behind their chosen items. Activities centered around purple-themed crafts, games, and songs ensured that the children experienced the color through multiple senses, making the learning process both fun and memorable. This celebration not only reinforced color recognition but also encouraged social interaction and creativity among the students.

TECH SMART TOTS

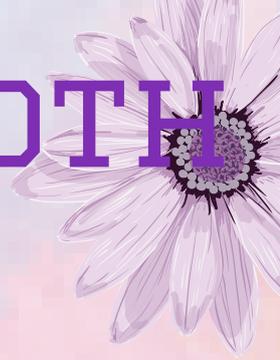

The Tech Smart Tots event at Sanskriti Kids was a delightful showcase of digital prowess and creativity by the pre-primary students. These young learners, affectionately referred to as "tiny tots," captivated the audience with their smart presentations, storytelling, and rhymes. The event emphasized the importance of building confidence at an early age, as these activities not only enhance communication skills but also introduce children to the digital world in a positive way. Parents were thrilled to witness their children present with such enthusiasm and poise, marking a memorable day for both the students and their families. This event underscored the value of integrating technology into early education, fostering a generation of tech-savvy and confident individuals.

PTM V

Parent-Teacher Meetings (PTMs) played a crucial role in fostering effective communication between parents and schools. PTM V, or the fifth meeting in a series, was particularly significant as it provided a platform for both parties to engage in meaningful dialogue about a student's progress, strengths, and areas for improvement. These meetings helped in building a collaborative relationship where parents and teachers could work together to support a child's educational journey. By staying actively involved, parents gained valuable insights into their child's academic and social development, while teachers could better understand the student's needs and home environment. This partnership ultimately contributed to creating a supportive learning environment that nurtured student success.

FAMILY SELFIE BOOTH

Organizing a family selfie booth for the Parent-Teacher Meeting (PTM) was a fantastic idea that added a delightful touch to the event. The booth provided a wonderful opportunity for families to capture joyful moments together, creating lasting memories of their time at the school. Parents, students, and teachers alike were seen enthusiastically posing with fun props and backdrops, adding a playful element to the otherwise formal occasion. The laughter and camaraderie shared at the booth fostered a sense of community and connection among attendees, making the PTM not only informative but also enjoyable. Overall, the selfie booth was a resounding success, bringing smiles and strengthening bonds within the school community.
